

## BARN HUNT CLINICS

Sunday, June 14, 2026

Presented by Dana Robbins

Stonehedge Dog Sports @ Wayside Farm – 986 Rockport Road, Hackettstown, NJ

Limited to 10 working teams - - - Heated Barn with room for crating

### **Barn Hunt Intro – 9am to 11:30am**

*Learn to play the game of Barn Hunt, where your dog gets to sniff out safely hidden rats*

This clinic will be an overview of the sport of Barn Hunt; showing you the rat tubes and practice course. Your dog will be introduced to the rat, with the rat in a reinforced wire crate. This will help gauge your dog's interest and determine next steps. Your dog will become familiar with the rat tub and the training method will be based on your dog's reaction and level of interest.

Your dog will be able to search for the rat tube hidden on the beginner course, learn how to comfortably and confidently "climb" the hay bales and navigate the 18" tunnel constructed of hay bales (dogs of all sizes can do this).

Throughout the clinic, the presenter will review the basic rules for trialing and answer questions as well as hosting a final Q&A period at the end.

### **Barn Hunt Master – 1pm to 3:30pm**

*Focus on fine tuning your master handling skills and your dog's efficiency in the ring*

Topics covered will be:

Discrimination – know when your dog is on the scent sooner and improve on reading your dog when scenting on litter vs. rat.

Indication – work on a stronger indication on the rat and build consistency.

Clearing the Course – learn to effectively sweep the course and improve speed.

Distance Challenges – work from a distance with confidence and efficiency.

**This clinic is open to MASTER LEVEL dogs only**

## BARN HUNT CLINICS

Sunday, June 14, 2026
